MARIYA EGGENSPERGER

{view this resume as a responsive website}

ABOUT ME

Hi! I'm a Computer Science student with a specialization in iOS Development. In addition to pursuing my B.S. in Computer Science, I also attended and graduated from the Flatiron School iOS Development immersive, a rigorous environment in iOS, which provided me with experience in Objective-C, Swift, User Interface Design and agile methodologies.

PROJECTS

FanBase

Github Repo   App Store

A full-featured, iOS mobile ecosystem for music fans integrating Spotify API/SDK. Features include: Twitter API for latest artist tweets, Bandsintown API for upcoming concerts and ticket availability and JSQMessages for in-app, text messaging. User authentication and the application backend is build using Firebase, a real-time JSON database. The app is in the app store: https://appsto.re/us/55Z6bb.i

RepoStarring

Github Repo

Utilizing Github API, the applications allows users to tap on Github repositories within an in-app tableview and star/unstar the selected repositories directly from the application, while asynchronously updating the starred repositories on Github.com

LocationsAPI

Github Repo

A simple application utilizing AFNetworking/AFHTTPRequestOperationManager to store and persist location data inputs. The app allows users to share trivia facts about locations around the city.

MonsterMake

Github Repo

A whimsical kids application for monster creations. The application's custom tab bar integrates animation and provides graphically designed buttons. In-app screenshot saving authorizes sharing of new monster pictures via iPhoto. The application coloring feature is a real-time environment built with Couchbase and Sync Gateway.

PROFESSIONAL EXPERIENCE

Cal Poly Pomona
2013-2015

Student Coordinator
Promoted physics student and faculty partnerships through recruiting of physics students as learning assistants. Coordinated pedagogical events and organized admissions acceptances and applications.

Civic Projects
2013-2015

Planning Associate
Assisted in the evaluation of city planning policies in an effort to re-envision municipal priorities for allocation of urban, physical and social economic resources. Experience working in a startup environment. Civic Projects.

Klean Home
2006-2014

Business Owner
For eight years, I operated my own, residential cleaning business and maintained business ledgers. Developed marketing strategies to generate profit and establish clientele.
